

Purely as a public service *and with no warranty expressed or implied (and potential typographical errors.. )*, David Demarest has prepared this Excel spreadsheet directly from the PDF of The Town of Underhill's statistical reappraisal of all real property effective April 1, 2026 but with his addition of two lines on the right to allow quick comparisons of the percentages of each property's increase.

Given our town's skyrocketing property taxes please vote out Dan Steinbauer's way of governance which, in addition to the legal problems elaborated upon at UnderhillVT.com, includes discretionary spending of our tax money on non-profit donations (which are best supported voluntarily by residents that can afford to do so) and *substantial* discretionary support for developing Jacob's Field for the United Church of Underhill's "affordable" Harvest Crossing project instead of preserving open space in Underhill Center.

Regarding Harvest Crossing, unsurprisingly, the May 14, 2026 selectboard meeting minutes (11) noted "the cost is a little more money than what they have..." and as usual there's no way for the public to know what the selectboard in planning with the legal advice received in the May 14 meeting, which may be entirely benign or more nefarious plans...

Please vote in good people to help our town have less taxes, more transparency and Equal Treatment For All..

**Old Value** This is your 2025 Grand List Value

**New Value-This** is your 2026 Grand List Value

**Homestead** This figure represents the residential value of your property minus any business or rental value you may have claimed on your HS 122 - Homestead Declaration

**Homesite** This figure represents the residential value of your home and the first two acres. It is used for Vermont's income sensitivity programs

If you are enrolled in the Current Use program, a Town Contract or have a Veterans exemption, those reductions are NOT included in the value listed here. You will receive a separate letter informing you of the effect those programs will have on your assessment.

**Judging the fairness of your new value** -As a taxpayer, you should be concerned with the fairness of your new value. We have sought to make this reappraisal fair, reasonable and equitable. If there are errors, we want to correct them. Please look at your new value and ask these questions: Is the new value a fair and reasonable value at today's
